

## ISE CERTIFICATION COURSE DETAILS

NAME:	SHETTY ASHIKA C	USN:	4AL16IS050
SEMESTER:	8	MENTOR:	Mr. SHARAN PAIS
COURSE NAME:	Learn basics of data structures and algorithms	DATE:	30/5/2020

### SCREENSHOT:

### BRIEF REPORT: (POINT-WISE)

- 1). There are different types of data structures. They can be classified as primitive and non primitive data structures.
- 2). Primitive data structures include Integer , real numbers, charecters and Boolean values..
- 3). Data structures include trees, graphs, arrays, linked list, stacks, queues etc
